AFRL, ASC play role in regional conference

by Jill Bohn, Air Force Research Laboratory Public Affairs

CONSIDERING LOCAL RESOURCES - Wright-Patterson Air Force Base and its impact on the regional economy was the focus of a joint meeting of the Ohio Development Association, the Ohio Economic Development Council, and the Kentucky Industrial Council. A group of approximately 150 people heard briefings on the Air Force Research Laboratory and Aeronautical Systems Center during the Dayton Regional Development Alliance sponsored conference held May 22 at Wright-Patterson AFB. Doug Blair (pictured standing), AFRL Technology Transfer Program Manager served on a panel that addressed the group, along with representatives from Edison Materials Technology Center, National Composite Center, and Wright Technology Network. The panel discussion was followed by a windshield tour of the base. The focus for the conference was Succeeding in the New Economy: Technology Transfer. @
